

SOURCE-TO-PAY ENTERPRISE APPLICATIONS: DO MORE WITH SERVICENOW

Avenir offers the AI-enabled source-to-pay applications that foster collaboration between business teams and provide intelligent capabilities to increase productivity, reduce cost and drive business value. Built on ServiceNow, Avenir solutions streamlines procurement, legal, & accounts payable work processes using latest technologies such as AI, ML and NLP to eliminate manual efforts, accelerate efforts, accelerate cycle time, and offer smart suggestions based on historical data.

Request for Proposal Management (RFP) solution streamlines the sourcing cycle and accelerates supplier qualification process for strategic supplier engagements.

Contract lifecycle Management Solution manages contract requests, self-service authoring, approvals, and e-signatures. Enterprise can monitor contract status and its obligations for greater compliance and control over costs and risks.

AI-enabled Accounts Payable Automation solution automates invoice data extraction, data entry and data matching. Enterprises can improve accuracy and accelerate time-to-approval across Accounts payable workflow.

Why Organization Choose Aavenir?

Built on ServiceNow – Unified Enterprise Cloud Platform

Aavenir solutions are purposefully built on the Now Platform that connects people, functions, and systems across your organization on single cloud platform.

Artificial Intelligence & Machine Learning

Harness the power of the AI, ML and Natural language processing technologies to eliminate manual work process, automate data extraction, improve accuracy, and reduce dependencies with smart suggestions based on historical data.

Faster Time-to-Value

Aavenir solutions are easy to deploy from ServiceNow App store and comes with pre-configured templates, playbooks, and libraries to get started quickly. Remote workforce can easily import the existing data lying in local repositories or other systems improve implementation time.

Intuitive User Interface to Ease Adoption

Aavenir solutions are designed based on years of experience in providing source-to-pay enterprise solutions for different industry verticals across the globe. The simple and engaging user interface enhances user experience and encourage the overall adoption.

Security & Compliance

Having Aavenir on ServiceNow helps you consolidate apps and data on a secure cloud platform to eliminate IT chaos of system administration and compliances.

24X7 SLA based Customer Support

Aavenir offers a personalized onboarding plan designed to support you in every step of the way. We also offer custom SLA based support plans to help you reach your most important goals faster.
